OUR MISSION

PINK4CHEE is committed to educating and increasing the awareness of early detection and treatment in minimizing the potential impact of breast cancer on the lives of women and men.

PINK4CHEE vision is to take a mobile medical unit in the communities and deliver breast health services to those uninsured and underinsured single mothers.

OVERVIEW

PINK4CHEE was formed originally to raise funds solely for Triple-Negative Breast Cancer research. However, the need to provide an accessible funding resource for single mothers became apparent after hearing heart-breaking stories of their financial struggles. Today, P4C focuses on support services that will alleviate the stress and hardships associated with managing a single parent household while undergoing cancer treatments. Through our mini-grant program, each applicant can receive up to \$300.00.

PINK4CHEE is committed to providing other support services and donations will be help with; food distribution, toy drives, health and wellness counseling, empowerment seminars, and recovery mentorship.
